

Tour Tech Rider – Kafka and Son

Running Time: 60 Mintues

Cast

Cast = 1 – dressing room required

Venue Crew Required

Running Crew

- Lighting Board and/or Sound operator

Set

A playing space of 5 meters wide x 5 meters deep is required. Ideally there is 2 meters clear on all sides of the playing space. A clean black floor is ideal– dance floor is acceptable. Black traveler is required upstage It will be specific to the grid height, or trim.

The following set pieces will travel with the show:

- 1 metal single bed frame
- 2 collapsible cages, various sizes
- 1 metal frame accordion ‘fence’• many black feathers, one white feather.

PLEASE NOTE – the metal frame bed will be stood on end and then allowed to drop to the floor. A thin piece of wood painted black is placed in the location of the fall. This has not caused any gouging of the floor in any venue and it is an important element of the show.

Lighting

Kafka and Son can usually work with existing venue lighting plot. We require one general open white or yellow tinted state, and one overhead deep blue state. We need 5 specials hung in the grid, plus 2 footlights, ideally P16 birdies on separate circuits on floor floats.

Sound

The following sound equipment must be supplied by the venue

- Playback capacity from a computer on Qlab
- Pair of full range speakers

Tech/Load in Requirements

We require a 4 hour lighting level session, and Q to Q. Additional hour for dress rehearsal
